

2005 Forecasting and Supply Planning Practices Survey

Order Form

The 2005 Forecasting and Supply Planning Practices Survey (2005 Survey) will be the fourth North American examination on forecasting and other practices of local distribution companies (LDCs).

It is the intent of this survey to provide insight on peak day forecasting techniques and daily operations. As with past surveys, the identities of responding companies will be kept confidential. The findings were presented at the SGA Fall Leadership Conference (Gas Forecasters Forum is part of this Conference; October 26-28, 2005; Westin Resort; Hilton Head SC).
