

Spring Gas Conference and Expo
Columbia, SC | March 13 - March 16, 2022

Type: In Person and Hybrid Option

In Person Attendance as of January 28, 2022

The 2022 conference will feature sessions, workshops and panel discussions led by industry thought leaders with content curated by peers. Topics focus on technical skills, safety, and leadership training for natural gas operators. With best-in-class training, you can create a customized schedule to meet your specific professional needs for you and your team to learn and grow together. In addition to classroom sessions at the convention center, some of the more hands-on workshops will take place at a nearby field training site in Columbia.
