

Technical Conference on Environmental Permitting and Construction

Oklahoma City, Oklahoma | February 8 - February 10, 2022

Type: In Person and Hybrid Option

In Person Attendance as of January 28, 2022

Join industry peers to hear from operators and industry partners alike on an array of environmental topics ranging from sustainability to new technologies, to our changing regulatory and cultural environment. Featuring sessions covering Environmental Permitting and Construction, this conference offers insights for newcomers, industry veterans, and everyone in-between. Merging the perspectives of gas operators and associate industry partners, TCEPC presents an opportunity to learn from the best-in-class in the natural gas industry and grow your network with engaging networking events.

Two Tracks:

Track A - Regulatory and Policy

Track B – Cultural and Construction
