

 **SGA** *Symposiums*

# ENERGY

Join top industry leaders to tackle regulatory shifts, LNG exports, CO<sub>2</sub> pipeline expansion, and workforce evolution in a decarbonizing world.

*This is how*

**MAY 22**  
HOUSTON, TX

The 2025 Energy Symposium brings together industry leaders, policymakers, researchers, and innovators to discuss the latest trends, challenges, and opportunities in the natural gas industry. This event will focus on the new administration's changes to the regulatory environment, LNG exports, expansion of CO2 pipelines, and the future workforce of this natural gas industry. This event will highlight the need and opportunity of the natural gas industry to meet the moment for energy demand in a world of decarbonization.

# TOPICS

- *Regulatory changes*
- *LNG export pause being lifted*
- *Attracting talent from the younger generations to the natural gas workforce*
- *Expansion of CO2 pipelines in conjunction with CCUS initiatives and projects*
